this is your place to find reliable firearms, quality ammunition and all the advice and information you need to enjoy shooting sports.

// 2024 PRODUCT CATALOG

A YEAR OF INNOVATION

2023 saw the successful launch of the RIA 5.0 from RIA-USA, our U.S.-based manufacturing facility in Cedar City, Utah. It’s always been a dream of mine to build firearms in the United States, and I’m proud to say it’s finally a reality.

We pride ourselves on listening to our customers, to ensure we’re bringing them the quality products they want. Which is why in late 2023, we released the RIA 5.0E. The “E” stands for enhanced. The enhancements come in the form of NEW optics cuts and plates for easy customization, and an updated barrel that’s crafted with improved materials and slide geometry. And finally, we gave it our Armor Series coating. You asked, we delivered.

2024 will bring more exciting products to our already great line up of firearms – starting with the expansion of our STK striker-fired pistol line – which delivers all the advantages of metal for the price of a polymer. The STK line will be part of our Armor Series and provide options for a FS, MS and CS. And that’s just the beginning. We have much more planned for the coming year and beyond. Keep your eye on armscor.com/new-products for the latest.

We know none of this would have been possible without you, our fans and supporters. Thank you so much for giving us your feedback over the years. It’s how we grow and how we can deliver the type of products you’re looking for. As always, thank you for your support and feedback. You keep talking and we’ll keep listening.

Martin Tuason
Armscor President & CEO

TCM ARMOR SERIES

PROTECT WHAT MATTERS.

When choosing a firearm for home defense, think about what matters. Accuracy. Light recoil. Ease of use. Velocity. The TCM checks all those boxes and is so easy to handle, anyone in the family can use it. Each TCM model comes with a high capacity 17-round magazine and fires our proprietary 22TCM round, which has been reimagined in full nickel for improved performance.

ARMOR SERIES

INTRODUCING ARMOR SERIES: SURFACE TREATMENT MADE TO LAST.

Rock Island Armory firearms have always been tough and durable. Now, select models are entering an entirely different league. If you see the Armor Series icon, it means that model is available with a diamond-like carbon coating designed to drastically increase reliability, durability, and performance.

DURABILITY IS BAKED RIGHT IN.

This isn't a spray-on coating that will eventually wear off. Armor Series is an advanced surface treatment that applies a clean, dry lubrication that results in permanent hardness while eliminating the need for oils or greases.

ARMOR SERIES ADVANTAGES.

- + Increases Reliability
- + Reduces Maintenance
- + Improves Wear Resistance
- + Enhances Corrosion Protection
- + Reduces Holster Wear

ROCK ISLAND ARMORY’S MOST WELL OPTIONED LINE OF 1911 PISTOL BUILT IN THE TRADITIONAL 70 SERIES DESIGN.

Bells? Check. Whistles? Check. The Rock Series is our most well-optioned line of 1911s. Upgraded rear sights. Skeletonized hammers and triggers and more. Get the idea? Then get a Rock.

The Rock series is built in the traditional 70 series design with the addition of next level upgrades. Like all Rock Island 1911s, each is built using 4140 ordnance steel on the industry’s best CNC machines while being hand-fitted and tested to strict tolerance guidelines for unmatched quality and value.

Caliber choices include 45acp, 10mm, 40 S&W and 9mm. Each Rock series 1911 includes upgraded rear sights with front sight options depending on model choice. Skeletonized hammers and triggers with adjustable over travel stop are offered on every model along, with ambidextrous safety on all with the exception of CCO (51857) and CS-L (51585). Combine this with multiple choices in size and you have one of the most versatile 1911 designs you can buy.

DURABLE 70 SERIES DESIGN.

The GI series provides a wide range of options in caliber, finish and size, making it one of our most versatile and durable options at a price that welcomes the budget of any prospective 1911 buyer. The frame and slide are built from 4140 steel and include button rifled barrels. Plus, each pistol is hand fitted and inspected to strict tolerances.

DON'T LET THE SIZE FOOL YOU.

What does decades building the world's most reliable, well-optioned, no-nonsense 1911s looked like? The answer is a 51912 BBR Standard. Since then, it has expanded into our full lineup of concealed-carry options known as the "Baby Rock" series.

While engineered for carry and storage in the smallest form, the Baby Rock series is built with all the right options for a functional personal defense firearm. It's caliber choices include 45ACP, 380ACP and 9mm with capacities of 7, 8 and 10. It's all backed by our steadfast hands-on quality control.

Don't let the name fool you. This is no baby.

THE XT SERIES DELIVERS.
TRY IT TO BELIEVE IT.

Go from basic to badass with Rock Island Armory's XT series. We took its original one-caliber design and cranked it up to a well-optional, high quality, multi-caliber force to be reckoned with.

The XT series is engineered with a pinned solid state barrel design and delayed blow back slide that rivals accuracy. The 22MAG series is backed by Rock Island Armory's closely managed and hand-fitted quality process.

PERFORM AT COMPETITION LEVEL RIGHT OUT OF THE BOX.

The master gunsmiths of the Medallion shop deliver a perfectly harmonized match class 1911 straight to your dealer ready for competition and without the risk of time and error.

The popular Pro Match Series is the product of decades of 1911 knowledge and mastery into the Medallion shop. Many who purchase a 1911 - in any form, look for a local or national gunsmith to perform the finishing touches on their factory pistol to turn it into a match class race gun.

This takes time, incurs uncertain cost and voids any warranty. With thousands of Rock quality frames, slides and parts to choose from, the Medallion shop master gunsmiths have a distinct advantage in being able to marry and tune the best components that will perform with total perfection. This series includes caliber choices of 45 ACP, 40 S&W, 10mm and 9mm.

HOME TO INNOVATION IN AMERICAN-MADE
PREMIUM FIREARMS.

Amscor and Rock Island Armory’s expansion into the U.S. market in 1985 was only the start. Now, we have RIA-USA added into our family of brands as our commitment to excellence continues with the launch of our line of premium firearms made entirely on U.S. soil.

Like all Rock Island Armory products, RIA-USA products are backed by our industry-leading Limited Lifetime Warranty.

We have big plans to turn the shooting sports industry on its head and we appreciate you being along for the ride. Hang on... we’re just getting started.

STRIKER-FIRED PISTOL FANS, REJOICE.

The STK Series is turning heads among striker-fired pistol fans. Equipped with aluminum frames and grips that add enough weight to reduce felt recoil, but are still light weight and comfortable enough to carry all day.

Chambered in 9MM, with 10, 15, and 17-round capacities. And featuring grips angled like a 1911 to give you greater control. The STK Series gives you all the advantages of metal, for the price of polymer.

AMMO

AMMO DESIGNED FOR
THE WAY YOU SHOOT.

ARMSCOR GOLD
