DEAR VALUED CUSTOMER,

For over 40 years, Armscor/Rock Island Armory has proudly served the firearms community in the United States. Over the past three years, we've strengthened our commitment by manufacturing products right here in Cedar City, Utah. Our dedication to U.S.-based production allows us to stay closely connected to our customers, ensuring we deliver the high-quality firearms you expect and deserve.

Our journey into manufacturing began with the revolutionary RIA 5.0, a game-changing innovation in the firearms industry. Building on your feedback, we introduced the RIA 5.0E, featuring new optics cuts and plates for easy customization, an updated barrel crafted with improved materials and slide geometry, aggressive serrations for effortless manipulation, elite-series finish, offering both durability and visual appeal.

RIA-USA is also proud to manufacture key VRF products, including the groundbreaking VRF14—the first semi-automatic short-barrel firearm of its kind. With its familiar pistol-style grip, the VRF14 allows you to shoot 12GA shells from the hip, delivering unparalleled versatility and control.

In 2025, we're thrilled to announce the addition of select TAC Ultra products to the RIA-USA lineup, highlighting our continued commitment to U.S.-based production. Known as Rock Island Armory's most versatile and all-around 1911 series, the TAC Ultra lineup features precise engineering elements and tactical advantages that cater to every shooter's needs and preferences.

Thank you for continued support and being part of the Armscor/Rock Island Armory and now RIA-USA family. We're excited about the future and remain committed to providing you with innovative, reliable, and U.S.-made firearms.

THE INDUSTRY'S MOST RIDICULOUS WARRANTY.

We have a ridiculous amount of confidence in our products. So much so that we offer a Limited Lifetime Warranty for as long as you own your gun. Ridiculous? Maybe. But we want you to be a customer for life.
