PRODUCT CATALOG

## 2021 WAS A BIG YEAR!

We have a lot of great things to talk about so let's get right to it!

First, you may have noticed a new logo on the cover of this catalog. Say hello to RIA-USA! That's right, we have officially launched our U.S.-based manufacturing facility in Cedar City, Utah and earlier in 2021 we introduced the one-of-a-kind VRF14. Also watch for info on a revolutionary new pistol that's sure to be a game-changer.

2021 also saw the addition of the STK100. It's our first striker-fired pistol and it delivers all the advantages of metal for the price of a polymer.

None of this would have been possible without you, our fans and supporters. Thank you so much for giving us your feedback over the years. It's how we grow and how we can deliver the type of products you're looking for.

Hang on. We have more big things planned for 2022 and beyond. Keep your eye on [armscor.com/new-products](https://armscor.com/new-products) for the latest.

## HAPPY SHOOTING!

Armscor President & CEO

## LIKE A THRILL RIDE. ONLY BETTER.

With four models to choose from, the revamped TCM Series still delivers an amazingly fun shooting experience with its enormous muzzle flash and minimal recoil. All models fire our proprietary 22TCM round and are now available only with a high capacity 17-round magazine, which is compatible with all four TCM pistol models and two TCM rifle models.

## AMERICAN INSPIRED. AMERICAN MADE.

Amscor and Rock Island Armory's expansion into the U.S. market in 1985 was only the start. Now, we have RIA-USA into our family of brands as our commitment to excellence continues with the launch of our line of premium firearms made entirely on U.S. soil.

Like all Rock Island Armory products, RIA-USA products are backed by our industry-leading Limited Lifetime Warranty.

## SO UNIQUE, YOU CAN'T HELP BUT STARE.

We pulled out all the stops for this one. The VRF14 is the first semi-automatic short barrel firearm of its kind, and the first American-made release to roll off the line at RIA-USA. It boasts a familiar pistol grip so you can shoot 12GA shells from the hip. Compatible with VR-Series 9- and 19-round mags, this firearm is sure to cause a stir.

# STK100

## OUR FIRST STRIKER-FIRED PISTOL IS HERE

The STK100 is turning heads among striker-fired pistol fans. It has an aluminum grip to add enough weight to reduce felt recoil but is still comfortable to carry all day. Chambered in 9MM, it has 10 and 17-round capacities. And it features a textured grip that's angled like a 1911 grip to give you greater control. For all the advantages of metal for the price of a polymer, check it out.
